

When you have a need in your lab that isn't being met with existing products, let us work with you to develop it.

R2FACT is your ON-DEMAND **R&D DEPARTMENT** with highly talented design and engineering professionals to bring your product to life. We will collaborate with you to:

- Design
- Engineer
- Prototype
- Manufacture

Since 2002 we have been developing Medical Devices, Consumer Products, Industrial Instruments, and Commercial Equipment. Below are some examples of our recent Animal Health successes, and shows just a glimpse of our capabilities.

**Your idea could revolutionize your industry.
R2FACT will partner with you to make it happen.**
